

one million process pumps speak for themselves.

Consider the facts: As part of ITT, Goulds Pumps has shipped over one million process pumps for countless applications in countries around the world. Including a complete line of API process pumps to handle the high temperature and pressure demands of the hydrocarbon processing industry. Model 3700, pictured here, meets all API-610 (10th edition) and ISO 13709 requirements. To see them all, request a free copy of our GPM catalog on CD by e-mailing us at gpsales@itt.com. www.gouldspumps.com
