

Wastewater treatment drives productivity. Think about ITT.

It takes 39,000 gallons of water to manufacture one car. And automotive is just one of the many industries that rely on plentiful, clean water. ITT is the world's largest provider of water and wastewater treatment solutions serving virtually every industrial segment in every corner of the globe.

With Goulds pumps, Flygt submersible pumps, mixers and control systems, WEDECO disinfection systems, and more than a dozen more leading global brands, ITT is all you need for wastewater solutions in any environment. Come see for yourself. Visit www.ittwastewater.com today and download our wastewater brochure.
