

**There's a new energy in fluid technology:  
everything in one place.**

For dynamic solutions to any fluid-handling problem, ITT is the only place you need to go. **Goulds Pumps®** can move any liquid reliably and efficiently. **ITT Engineered Valves** precisely regulate the flow of clear, corrosive, or abrasive fluids. **PRO Services®** provides cost-effective, expert maintenance and engineered upgrades. **PumpSmart®** will operate your pumps at peak performance while protecting them from system upsets. And **PROsmart™** continuously monitors all your rotating equipment. From start to finish, ITT clearly is your one-stop fluid-handling resource. For more information, visit [www.ittindustrialproducts.com](http://www.ittindustrialproducts.com) or call 1-800-734-PUMP.
